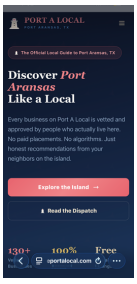
Suggested Edits and Revisions:

Home Page Header

- Sticky header is shaded until you scroll down on the homepage on desktop and mobile. Not a big deal, just a style note.



Carts Page

- Add space between "discount" and "off"

Surf Report goes to 404

Dispatch Headline Revisions

- Wording is feels unnatural for headline: "Editorial, analysis, and reporting on the island as it is — not as it is advertised."
- Editorial by definition means there is an editor or editorial board / publisher.
- Suggested Headline Revision: **Features, analysis and reporting on the island as it is – not as it's advertised."**

Dispatch

- "The Two Port Aransases": Aransas**es** feels weird with the "es"
- Suggestion for new headlines: "Port Aransas – A Tale of Two Islands"
- This article is the only one I see (comparing to Heritage, etc) where the first letters of the headings aren't capitalized ("The frame" should be "**The Frame**"and consistent with each section header)

Maintenance Request Sub Header Revision:

- Aransas**'s** doesn't work. Original: "Submit a request and we'll connect you with Port Aransas's most trusted local maintenance team."
- Suggested edit: "Submit a request and we'll connect you with the most trusted maintenance team in Port Aransas."

Maintenance Request Sub Header Revision:

- Aransas**'s** doesn't work. Original: "Submit a request and we'll connect you with Port Aransas's most trusted local maintenance team."
- Suggested edit: "Submit a request and we'll connect you with the most trusted maintenance team in Port Aransas."

Legal Eagle Stuff:

It looks like all the bases are covered on the basics form the Terms & Conditions.

We may need to add Assumption of risk / release of liability. And something like (I'm not sure the exact here)

You agree to indemnify, defend and hold harmless Palm Family Ventures LLC, all affiliated with, etc.

Not sure, but in case we need it to be covered.
